SUMMARY

2nd-year BTech Computer Science student with basic knowledge of programming and a focus on improving logic building and problem-solving skills. Interested in learning about Artificial Intelligence and UI/UX, and looking for opportunities to gain practical exposure and grow.

Education

B.Tech in Computer Science Engineering
Silver Oak University, Ahmedabad, Gujarat
CGPA: 9.27

2024 – 2028

TECHNICAL SKILLS

Python

Completed two Python certifications and actively enhancing programming skills through regular practice and learning.

C language

Acquired basic knowledge in C , with a desire to learn more.

Canva

Designed posters and creative materials for IEEE using Canva.

Figma

Designed posters for IEEE events using Figma and developing skills in UI/UX design through continued exploration.

VN and CapCut

Edited reels and promotional videos for Your Choice Nails using VN and CapCut.

PROFESSIONAL EXPERIENCE

Interim Vice Chair Creative Committee, IEEE

Jan 2025 - Jan 2026

- Collaborated with a team to strategically plan and execute innovative content for a variety of student activities and events, enhancing participation and engagement through targeted outreach and creative programming.
- Played a key role in the design and development of promotional materials, utilizing graphic design software to create visually appealing assets for both technical and cultural events, resulting in increased attendance and awareness.
- Partnered with team members to enhance visual engagement and presentation quality by implementing best practices in design and storytelling, leading to improved audience retention and feedback during presentations.
